Cri Cri					

Our company was founded way back in 1979 and rapidly made a name for itself, specialising in the production of typical hand-made sweets, with a constant focus on the quality and tradition of these delicious treats.

The excellent quality of our products is due to our selection of the very best ingredients available on the market, which are enhanced by our meticulous production processes. Superb quality has always been our strong point.

Our organisational and production system complies with all the quality criteria for HACCP standards. Our customers are both retailers and specialist wholesalers. Over the years we have gained solid experience in the manufacture of branded products for distributors.
